# AGENDA

A decorative horizontal line consisting of a series of small, light gray dots, slightly wavy in its path, spanning the width of the slide.A solid green horizontal bar with rounded ends, containing the text 'DEFINATION' in white, uppercase letters.

DEFINATION

An empty white rectangular box with a thin green border, positioned to the right of the green bar.A solid green horizontal bar with rounded ends, containing the text 'WHEN APPLICABLE' in white, uppercase letters.

WHEN APPLICABLE

An empty white rectangular box with a thin green border, positioned to the right of the green bar.A solid green horizontal bar with rounded ends, containing the text 'VALUES' in white, uppercase letters.

VALUES

An empty white rectangular box with a thin green border, positioned to the right of the green bar.A solid green horizontal bar with rounded ends, containing the text 'PRINCIPLES' in white, uppercase letters.

PRINCIPLES

An empty white rectangular box with a thin green border, positioned to the right of the green bar.

# DEFINITION

- Scrum is a process framework used to manage product development and other knowledge work.
- **WHEN APPLICABLE:**
- Scrum is best suited in the case where a cross functional team is working in a product development setting where there is a non trivial amount of work that lends itself to being split into more than one 2\_4 week iteration.

# VALUES

---

COMMITMENT: team members personally commit to achieving team goals

---

COURAGE: team members do the right thing and work on tough problems

---

FOCUS: concentrate on the work identified for the sprint and the goals of the team.

---

OPENNESS: team members and stakeholders are open about all the challenges the team encounters.

---

RESPECT: team members respect each other to be capable and independent

# PRINCIPLES

A horizontal dotted line with small grey dots, spanning the width of the slide.

TRANSPARENCY: the team must work in an environment where everyone is aware of what issues other team members are running into

A light green downward-pointing arrow.

INSPECTION: frequent inspection points built into the framework to allow the team an opportunity to reflect on how the process is working.

A light green downward-pointing arrow.

ADOPTATION: the team constantly investigates how things are going and revises those items that do not seem to make sense.

# ROLES

THE PRODUCT OWNER: the product owner is a role team responsible for managing the product backlog in order to achieve desired outcome that the team seeks to accomplish.

THE SCRUM MASTER: the scrum master is the team role responsible for ensuring the team lives agile values and principles and follows the processes and practices that the team agreed they would use.

THE DEVELOPMENT TEAM: the development consists of the people who deliver the product increment inside a sprint.
